International humanitarian law & International organizations | Jul 28, 2026

On 28 July 2026, Egypt condemned, in the strongest terms, the storming of the “Kalandia” Center by the Israeli occupation forces and the detention of students and staff inside it. **Egypt stresses that this constitutes a flagrant violation of the sanctity of United Nations premises and a continuation of Israel’s escalation against international organizations. Such actions represent serious violations of international law and international humanitarian law, as well as a breach of the Fourth Geneva Convention concerning the protection of civilians under occupation.**

Egypt further emphasized its categorical rejection of all measures aimed at undermining the mandate and operations of UNRWA or obstructing its humanitarian and relief activities.

Egypt called upon the international community, particularly the United Nations and the Security Council, to take urgent measures to halt the repeated Israeli violations against United Nations facilities, ensure the protection of UNRWA and enable it to carry out its mandate without obstruction, thereby contributing to the protection of the rights of Palestinian refugees in accordance with international legal resolutions
